PIONEER PAPER OF ARIZONA

PRESCOTT, ARIZONA, WEDNESDAY MORNING, JULY 10, 1918.

FIFTY-FIFTH YEAR

SAYS HUN MONEY PURCHASED THE EVENING MAIL

NEW YORK PUBLISHER ARRESTED ON CHARGE OF USING GERMAN GOLD TO BUY UP CONTROL OF EVENING NEWSPAPER.

By Associated Press.

NEW YORK, July 8.—Dr. Edward A. Rumely, vice president and treasurer of the Mail and Express Company, publisher of the Evening Mail, was arrested tonight at the office of the attorney general, charged with perjury in his report to Alien Property Custodian Palmer. The complaint charges that Rumely in making his report of the transaction, failed to disclose his relations with Bernstorff, the German ambassador, and Dr. Heinrich E. Albert, a commercial attaché of the German embassy. Attorney General Lewis has been conducting an investigation of the affairs of the Mail for some time. It is charged that Rumely purchased stock in the company in June 1917, from Henry L. Stoddard, and in so doing acted in behalf of the German government. Lewis charges that Germany paid Rumely \$1,351,000 with which to purchase the Mail, the amount of the various payments being concealed until investigators, later uncovered the details.

The bond holders of the Mail and Express Company will take possession of the evening Mail tomorrow morning. "We will see to it that the Americanism for which we stand will be reflected in its columns," said Henry L. Stoddard, the president. A statement was issued late tonight by Assistant State Attorney General Becker who said: "The entire amount which went into the purchase of the Mail was derived from the sale of German war bonds in this country, and Americans furnished the money to acquire the paper which was to be used to spread German propaganda. While the deal was made with Stoddard for the paper there is no evidence that Stoddard knew it was German money. Stoddard retired from the management and still holds most of the bonds. When America declared war Stoddard threatened to foreclose unless the Mail expressed loyalty in every way."

SUNDAY STORMS DRENCHED ALL OF YAVAPAI

FOR THE FIRST TIME THIS SUMMER RAIN FELL EVERYWHERE. DROUTH IS DROWNED OUT IN COUNTY.

(From Tuesday's Daily.)

Sunday night's storm was the heaviest of the season, but was relieved of any freakish actions in hitting one section and missing another, covering all sections with a drenching downpour. The elements seemed to double up, breaking to the north of Prescott and also to the south, this locality also receiving a generous portion.

Reports received yesterday morning at the S. F. P. & P. offices in this city stated that Ash Fork, east and west, had received a heavy soaking, and along the line as far south as Phoenix rain reports were everywhere mentioned as unusual. The storm to the north as well as to the south was of long duration and as remarkable as it may seem, no property damage has been reported.

Telephone and telegraph reports reaching Prescott yesterday were of the same tenor—happiness and rejoicing among farmers and ranchmen. That every foot of Yavapai has been soaked deep is now admitted and such benefit is given as to insure to all industries an excellent outlook.

Individual reports are quite interesting. J. W. Stewart who arrived yesterday from Williamson valley, said: "I have been in the country now for 44 years, and the situation on the range today is the equal to that of the long ago; it cannot be best."

Former Supervisor W. G. Wingfield, arrived yesterday afternoon from Camp Verde, and reported the country as now in fine shape, and while the valley has been soaked by heavy rains, Clear Creek, however received the bulk of the big downpour. C. P. Crandall, a mining man in the city from Copper Creek yesterday, said the region had been swamped, but no cloudbursts fell.

A private telegram from Seligman said: "It's all off with the dries; we are extremely wet up here."

Fred LaJeunesse, of Skull valley, says it was a good and big rain, and the dry farmer is now chuckling with glee over the outlook.

C. T. Parker, who had been looking over conditions in the Congress Junction range region, said the storm was heavy and long, and had surprised old-time residents for being so general.

Dan Condon, of the Pickercell & Condon Garage, who was on Turkey creek Sunday night, after his return yesterday, stated such a storm he had not experienced in many years, and was unusual in lasting so long, indicating that it must have covered a large area of country.

PROHIBITION FOR F. L. HAWORTH IS CHANGE IN SLAV SITUATION IS NOT TO BE A CANDIDATE

COUNTY ATTORNEY BELIEVES ALL YOUNG MEN SHOULD BE IN THE ARMY JUST NOW AND WILL ENLIST SHORTLY.

By Associated Press.

WASHINGTON, July 8.—Legislation providing for absolute prohibition during the war was reported to the senate today after the agricultural committee agreed to drastic changes in the Norris amendment to the \$11,000,000 emergency agricultural appropriation bill by which the sale of distilled spirits, beer and wine, except for export is prohibited after next January 1st and the manufacture of beer and wine stopped after November 1st. Prohibition leaders hope this section will be taken up tomorrow and are confident of victory on the final roll call. Strong opposition is expected because of the removal of the shipping board officials. Under the amendment the removal of distilled spirits held in bond is prohibited after January except under regulations of the commissioner of internal revenue.

Efforts of the administration to obtain immediate senate disposal of the house resolution authorizing the president to take over the telegraph and telephone companies stirred up a bitter fight. The resolution was buffeted back and forth between the committee and senate floor over question of hearings or hastening senate debate. No decision was reached and the factions are prepared for a renewal of the struggle Tuesday.

FOREST FIRES

MISSOULA, July 8.—With scores of large forest fires and hundreds of smaller ones raging in western Montana and northern Idaho, the district forestry officials are rallying 2,000 fighters. The fires drove back the fighters in the Selway and Clearwater forests, destroying much standing timber and enveloping the section in dense smoke and flames.

F. L. HAWORTH IS NOT TO BE A CANDIDATE

COUNTY ATTORNEY BELIEVES ALL YOUNG MEN SHOULD BE IN THE ARMY JUST NOW AND WILL ENLIST SHORTLY.

(From Tuesday's Daily.)

County Attorney F. L. Haworth yesterday issued a formal statement in which he stated that he would not be a candidate for the office during the coming campaign, giving as his principal reason that he believes that it is the duty of every able bodied young man to be in the ranks of the United States army instead of attempting to be elected to a public office.

Mr. Haworth has made a splendid record during his incumbency, and his friends had not questioned the wisdom of his making a race for the office at the coming primaries, and consequently his announcement of yesterday came as something of a surprise. Mr. Haworth could undoubtedly have the office again should he care to make the race, and his acquaintances who had hoped to have the opportunity of expressing their approval of his official conduct by giving him a large vote, are naturally a little disappointed, although they will instantly see the logic of Mr. Haworth's viewpoint. Perry Ling his assistant will also enter the army, which leaves the field free for Alex Jones, who announced his candidacy yesterday.

The statement issued by Haworth yesterday is as follows:

"July 8th, 1918
The Democratic Central Committee,
Prescott, Arizona.
Gentlemen:

"One of your members today asked me for a statement as to whether I expect to be a candidate for the office of County Attorney at the coming election. For your information, I advise that I shall not be a candidate. Under ordinary conditions I should certainly seek the Democratic nomination for this office, but under our present war conditions I feel that able bodied men of military age should be in the army, rather than seeking public office. I shall, therefore, enlist in the army as soon as I can straighten up my private affairs. I appreciate to the fullest extent the offers of support which I have received from loyal Democrats in this country, but I believe their efforts should be turned to the election of some man incapable of military service by reason of age or other disability. I am authorized by Perry M. Ling, Deputy County Attorney, to state that he will not be a candidate for this office. Mr. Ling also contemplates entering the army by enlistment at an early date. We shall each be at your command in assisting the party prior to the election during whatever period we may remain out of the army.

"Very truly yours,
"F. L. Haworth."

JAPS WAKING UP

LONDON, July 8.—Measures for perfecting the national defenses of Japan were decided upon and a plan for cooperation between the army and the navy was adopted by the council of field marshals and admirals recently in Japan, says a dispatch to the Times from Tokyo under date of July 1. The army, it is said, will comprise 21 corps with two divisions to the corps and three regiments to the division. The Times computes that the new measure will double the strength of the Japanese army.

Heretofore some latitude has been given in allowing the paper to run a few days beyond the date of expiration, but hereafter, the paper will be promptly stopped when subscription expires. Subscribers will accordingly remit several days before date of expiration in order to avoid missing any issues.

The New Postal Law requires the publisher to pay graduated zone rates, and the subscription price will later be raised for papers mailed to distant zones.

CHANGE IN SLAV SITUATION IS SEEN BY HUNS

AMSTERDAM, July 8.—"Changes in Russia are imminent," says Frankfurter Zeitung, "and if the Entente's enterprise should lead to a collapse of the present government, then not much will remain of the peace treaties. Our problems will then become more complicated than ever. Let's hope that in the solution, then, the sword will play a little role as possible. Nevertheless, the central powers on no account can permit the Entente to find fresh resources in the east."

STEPHENS TRIAL MAY GO OVER UNTIL AUG. 1

INABILITY OF COUNSEL TO SECURE REQUIRED NUMBER OF JURORS IS LIKELY TO CAUSE POSTPONEMENT OF ACTION.

(From Tuesday's Daily.)

Out of 38 prospective jurors examined yesterday during the opening session of the trial of the case of State vs. Harry Earl Stephens on a murder charge, only 13 qualified jurors were selected and in all probability the case will be continued until some date in the neighborhood of August 1st in order to allow the court to call in two more venues of jurors. Before a murder case can go to trial, 29 qualified jurors must be in the box. From this number the defense is allowed to strike 10 and the State can eliminate seven, leaving the regulation dozen to try the case. In view of the fact that the venire of 54 which reported yesterday was practically used up in an effort to select the 29 men who were acceptable to each side, Judge Sweeney yesterday evening held slight hope that the jury could be completed from out of the list of names called at the opening session. If this is the case, all of the 13 who qualified yesterday will be released and their names will be added to the next panel examined and all of yesterday's work will have to be done over.

Two more calls will be made, and in view of the fact that at least 10 days are required to get action from a call of this sort, it will be seen that the case cannot possibly come up before about the first day of the coming month. A call for another venire will probably be issued today. There will be 75 names in the list, but the court does not hope to get more than about 30 from the list. As soon as the prospective jurors have reported in answer to this call, they will be told to report again on the date upon which the second panel is to come in, and these 29 venues, combined with the eligibles now in court, will be bunched in an effort to get the requisite 29 men for the beginning of the trial.

The men who qualified at yesterday's session and who proved to be acceptable to both the State and the defense were the following-named: H. T. Smith, A. J. Hummerth, N. A. Vyne, W. H. Archdeacon, G. E. Lady, J. E. Weber, Charles Travis, Albert Weising, George W. Taylor, J. S. Pratt, W. A. Hill, Nathan Levy and George Davis. Owing to the fact that there was still a remote possibility that out of the sixteen jurors who had not yet been examined, the necessary additional members could be found, the group of 29 men who constituted the list of those who had been accepted and those who had not yet been examined, were kept in charge of the bailiff last night. But as soon as one man is disqualified at this morning's session, the whole deal will be declared off, and a new start taken.

A great deal of care was exercised yesterday by the respective counsels in the matter of selecting the prospective jurors. The majority of those examined admitted that fact that they had heard and read all of the details of the killing, and had formed and expressed opinions regarding the affair. Two men told the attorneys that they had not read any newspaper accounts of the shooting, while another one said that he had read lots about the case in the Prescott papers, he did not believe anything that he read in these publications, and that consequently his mind was still open to conviction.

Court officials, believe that the trial of the case, in which two defendants are involved, will occupy the greater part of three weeks. It is understood that the defense has summoned more than 60 character witnesses who will be put on the stand in an effort to prove that the character of Harry Stephens and his father, Joe, was good prior to the shooting of Miller. The defendants are represented by O'Sullivan & Morgan and E. S. Clark is acting as special prosecutor to assist County Attorney Haworth.

FRENCH PRESS BACK ENEMY TWO MILES

NEW FRONT ESTABLISHED FROM LONGPONT TO AMBRELYN, ALMOST 8 MILES; COLONISTS HIT ENEMY HARD.

By Associated Press.

Continuing their aggressive defense in face of the impending offensive, the French have attacked southwest of Soissons. From the eastern side of the Retz forest, north of Longpont they advanced over a front approximately of two miles, taking Chavigny farm, the slopes north and south of the farm and several hundred prisoners. This gives the French a new front from Longpont north to Ambrely, of almost eight miles.

The Australians astride of the Somme, east of Amiens and north of Hamel, swept back the enemy front for over a mile and straightened out an awkward angle. Berlin mentions local attacks in the Clignon sector held by Americans between the Marne and Rheims.

The Italians in Albania struck hard at the Austrian positions along the Vojni river. Vienna admits the advanced posts were withdrawn. A serious offensive may be initiated there. The navy is able to cooperate with the Italian land forces and if the lines are pushed back very far the relocation of enemy lines running over the mountains into Macedonia might be necessary. Fighting has been on for three days, thus indicating it may be more than a local action.

Events are moving rapidly in Russia since the assassination of the German ambassador. Rumors of a counter revolution in Moscow come from various sources. Other dispatches say the uprising was crushed, and several hundred revolutionists arrested. The indications are that German troops may be sent to Moscow. Dispatches say the Kaiser has forbidden the foreign office to negotiate in any manner with the Russian emissaries.

Threat of a new offensive against Italy, is apparent, this time from the Trentino front by large Austrian forces led by German shock units. The Germans are reported to be concentrating, preparatory to launching the blow.

Eleven drifted helplessly for eleven days, subsisting mostly on seaweed and rain water.
